

BASE m-banxafe

pay and top up
quickly and securely

128k SIM card included when you register
for m-banxafe!

How can I get m-banxafe?

First of all, you'll need the new BASE 128k SIM card.

- Not yet a BASE customer?
Join BASE, and you will automatically receive the 128k SIM card!
- Are you already a BASE customer?
Then go to a BASE shop and register immediately for m-banxafe. You will then receive your SIM card for free. If you want to use the 128k SIM card without registering for m-banxafe, the SIM card will cost you €10.

How do I register for m-banxafe?

Once you have your 128k SIM card, go to the BASE menu on your mobile phone and select "m-banxafe". Click the "Activate service" option, and enter the secret PIN code of your choice.

Then do one of the following:

- either go to a BASE shop and ask the staff to activate the service for you;
- or go to an ATM, insert your Bancontact/MisterCash card, choose "GSM Services", and then "Activate m-banxafe". Follow the instructions. You will then receive confirmation of your m-banxafe activation by SMS.

m-banxafe makes life easier!

Thanks to m-banxafe, your BASE 128k SIM card is linked to your bank account, opening up a whole world of possibilities!

You can use m-banxafe to:

- **Top up your BASE call value**

- Are you a BASE prepaid customer? With m-banxafe, you can easily top up your call value, or call value for family members who are also BASE prepaid customers.
- Are you a BASE postpaid customer? m-banxafe enables you to top up your children's or someone else's BASE prepaid call value.

- **Check the balance of your bank account**

Retrieve the balance of any bank account that you have linked to m-banxafe in no time at all on your mobile phone screen.

- **Pay with your mobile phone**

The BASE 128k SIM card is compatible with the Banksys Pay2me service.

These services are available to you no matter if you are a BASE postpaid or BASE prepaid customer!

The m-banxafe application was developed in close cooperation with all Belgian banks, and offers you full security comparable to bank transactions using Bancontact/MisterCash.

What does m-banxafe cost?

Registering for the service is free, and so is topping up with m-banxafe. Other operations such as:

- making payments
- checking your account balance
- checking your last 3 m-banxafe transactions

cost € 0.25 per operation, VAT included.

The BASE 128k SIM card: more than just a simple SIM card

To benefit from the range of possibilities of m-banxafe, you need a 128k SIM card.

The convenient BASE menu in the SIM card offers you quick access to numerous functions, a variety of entertaining games and new services such as m-banxafe!

By inserting your BASE 128k SIM card into a 3G-compatible mobile phone, you'll also have:

- a telephone directory for storing up to 250 contacts and 500 telephone numbers
- a function allowing you to add the e-mail address of your contacts to your mobile phone directory (the contact's name and e-mail address can contain up to 33 characters each)

Many of the services available in the 128k SIM card are free. If the service that you wish to use is not free (for example, the off-hours pharmacist or download ringtones), you'll always be informed that it is a chargeable service before continuing.
